PACKED "5" OF EACH KIND IN A CARTON WHICH "THE DEALER WANTS"	PACKED "10" OF EACH KIND IN A CARTON— EASIER TO STOCK
<ul style="list-style-type: none"> <li>⊗ Will buy more kinds and lengths</li> <li>⊗ Will buy more higher quality grades</li> <li>⊗ Therefore, will satisfy more customers                             <ul style="list-style-type: none"> <li>a. Sell more Handles</li> <li>b. Make more Profit</li> <li>c. Does Not increase his Inventory</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>⊗ Easier to maintain Inventory</li> <li>⊗ Easier to sell a full carton</li> <li>⊗ Takes less room for stocking                             <ul style="list-style-type: none"> <li>a. Sell more Handles</li> <li>b. Make more Profit</li> <li>c. Satisfy more Customers</li> </ul> </li> </ul>

### HERE IS WHY THEY "BUY"

1. Wedge Pocks (metal and wood) on each Handle.
2. Kind and Length of Handle imprinted on each Handle.
3. Size of Tool Head for which Handle is designed is on each Handle.

### HERE IS WHY THEY "SELL"

4. Eye Ends made for Tool Heads and are slit for Faster Wedging.
5. All SEAL BRAND Handles with SEAL BRAND Names carry Product Insurance.

## SEAL BRAND GRADING METHOD

\* DENOTES — BETTER SERVICE GRADES AND MORE PROFIT

- \*A. GOLD-BLUE SEAL BRAND — Extra Heavy weight, fast growth, perfect white Hickory. The very best to use.
- \*B. GREEN-WHITE SEAL BRAND — heavy weight second growth white Hickory — slight streak and very small red tip permitted. "Our most Popular Seller."
- \*C. ROYAL SEAL BRAND — Fire coated, attractive finish, heavy Hickory for users of Good Tools who like this New Eye Appeal Finish.
- D. ORANGE-QUALITY SEAL BRAND—medium weight white Hickory—some contain a few streaks, small tight knots or red tips. A fast moving brand.
- E. BROWN-YELLOW SEAL BRAND — medium weight red, brown, and white Hickory—some contain a few streaks, small tight knots. Popular price.
- F. FIRE-STREAK SEAL BRAND — Fire coated finish, fair weight, has some defects, only fair service. A Fair Price Seller.

### **G. PARCEL POST SHIPMENTS**

1. All 5% Net to Prices
2. Plus postage cost.
3. Plus insurance cost.

---

## **YOUR ORDERS — SHIPMENTS — TERMS**

---

### **A. FOR QUICK SHIPMENTS**

1. Place your orders for the various names of SEAL BRANDS of kinds and lengths you want.
  - a. Order just by the handle number.
  - b. Orders of this kind will be shipped quick because all popular items are prepacked in "5" pack and "10" pack cartons.
2. Orders that contain private brands or numbers or name imprinted on handles will have to be processed—Therefore, will take much longer to ship. Same applies to one dozen pack cartons.
  - a. When ordering by your Private Brand Names, give complete information for each handle.
  - b. You cannot use Seal Brand Handle numbers when ordering Private Brand Names.
3. When making up an order, check your weights—weights for 5 pack cartons are shown on each item by each item.

### **B. L.C.L. SHIPMENTS**

1. Via railroad or truck to all points east of Denver, Colo., in U.S.A. for 250 lbs. or more. EAST OF DENVER: Full freight allowed on shipments of 250 pounds or more.
2. Shipments Less than 250 lbs., all freight cost is charged to customers.
3. Hickory, Ash, File Handles & Mollets can be included to make minimum weight.

### **C. PARCEL POST SHIPMENTS**

1. For 39 lbs. and less
  - a. Add 5% Net to prices
  - b. Postage and Insurance Cost will be added to invoice.

### **D. WEST OF DENVER SHIPMENTS**

Via Pool Cars: Full freight prepaid on 250 lbs. shipments to terminal warehouse at Salt Lake City, Butte, Spokane, Seattle, Portland, San Francisco, and Los Angeles.

West of Denver, via L.C.L. \$3.00 per CWT freight allowance on shipments of 250 lbs. or more.

### **E. TERMS**

1. 2% 10 days Net 30 days.
2. When requested 2%—10th Prox.

### **F. CLAIMS ON FREIGHT—SHORTAGE, DAMAGE, AND COMPLETE LOSS OF SHIPMENT**

1. Customer file all claims with the delivering carrier for loss of any cartons or full cartons damaged.

- o. Do not sign for those cartons that are lost or not delivered, or for full cartons that are damaged.
  - b. Also, report to LaPierre-Sawyer Handle Co., Jackson, Mo., and we will trace from this end on lost items.
  - c. Upon request by customer, we will reship and invoice for items that are lost or damaged.
2. For some items that are damaged in a carton or lost out of a broken carton, file claim only to the delivering carrier.
  3. For contents not found in any full cartons which are supposed to be in there, report missing items at once to LaPierre-Sawyer Handle Co., Jackson, Mo., for reshipping at no cost.
    - a. If you find items in any full cartons that you did not order and were not invoiced, please do the following:
      1. Check the handles because the handles might be correct whereas a mistake was made at the factory in marking the ends of the cartons.
      2. If the handles are not correct, advise LaPierre-Sawyer Handle Co., at once giving list of items that are wrong so a reshipment can be made.

#### G. CLAIMS ON PARCEL POST—SHORTAGE AND LOSS. NOTE: ALL PARCEL POST SHIPMENTS ARE INSURED.

1. Customer report only to LaPierre-Sawyer Handle Co.
  - a. Post Office will send Form No. 1810 to customer to be signed and returned at once to LaPierre-Sawyer Handle Co., Jackson, Mo.
  - b. Then a Proof of Loss Form will be sent to Customer to be signed and returned at once to LaPierre-Sawyer Handle Co., Jackson, Mo.
2. In ten days after customer reports to us a shortage or loss and if the customer does not receive some during that ten days, we will reship from factory and invoice some.
  - a. Will issue credit then for the lost items.
3. Customer must advise by telegram collect if and when he receives the lost items.
  - a. If we have already reshipped, we will give customer a choice to keep or return—must have our approval before returning.
  - b. If customer wants to keep some, tell us at once, and we will reinvoice for some.

#### H. PRICES

1. Subject to change without notice.

## YOU HAVE TO KNOW THIS HOW TO MEASURE THE EYE ENDS OF SEAL BRAND HANDLES

⊗ Always measure 1/2" to 3/4" back from the tip of the eye end.

1. The last part of the Eye End is always sawed off after fitting handle into the tool head.
2. Usually, the tip of the Eye End is pointed slightly.

#### STANDARD SIZE TOLERANCE OF EYE ENDS

- ⊗ SEAL BRANDS are usually not over 1/32" over or under but never more than 1/16" over or under.
1. Govt. specifications allow 1/16" over or under.
  2. For Handles requested with a very close tolerance, the Eye Ends have to be gauged—See extra cost for Gauging.
  3. Tool manufacturers are allowed a tolerance for Eye Openings of their tool heads, therefore, the Eye Openings of tool heads will vary from time to time.

#### SEAL BRAND QUALITY GUARANTEE

Seal Brand Handles that become defective in distributor or their dealer's stock will be replaced or given full credit providing they are not over 6 months old. After credit is given, the Handles must be destroyed. We don't want them sold for seconds.

At times Powder Post Beetles are found in the handles, therefore, those handles would be defective. At times, even some of your best Quality Grades will become severely warped or twisted, therefore, those would be defective.

Distributors and their Dealers should follow the instructions on the Care of Handles listed in the Seal Brand Handle Chart. Handles that are slightly bent can easily be straightened—See this in the Handle Chart.

Handles returned to the Plant must first have approval from the main office or from our Sales Representative.

## BRIEF FACTS ABOUT QUALITY AND PRICE

It is almost impossible to buy a good quality Repair Handle at a CHEAP PRICE.

1. You should never sell a low price handle for good quality.
2. A customer or user that needs and wants a good quality handle must pay the price for same which he will do.
  - a. Good quality handles have more weight, straight grain, and usually faster growth. (Wide spacing of the annual growth rings found on the ends of the handles.)
  - b. More users or customers want good quality handles than ever because good quality handles
    1. Last much longer, therefore, you do not use as many handles which results in lower use cost.
    2. Takes the shock when using, therefore, will not break as often and the user will not become tired in a short period of time.
3. You make more profit—Have Less Complaints—Satisfy more Customers when selling good quality handles. Always stock and sell good quality handles made by SEAL BRANDS.

## WHY HAMMERS SHOULD BE USED WITH GOOD QUALITY HICKORY WOOD HANDLES AND NOT METAL OR PLASTIC

1. Lower Cost Price of Hammer.
2. Hammer heads do not chip or break as often. The Hickory retards the shock and strain of the head every time a Hammer is in use.
3. The Hickory Handle will not become "Bent" and stay "Bent" when in use like some kinds of metal handles.
4. When most hammers with metal or plastic handles break, the hammer is then useless and worthless.
  - a. When hammers contain Hickory wood handles, the handles can be replaced with another Hickory wood handle. Note, a good quality Hickory wood handle is the cheapest to use and lasts longer than lower quality or lower price handles.
5. Hammers with good quality wood handles have the best Balance which is most important.
  - a. The user does not become as tired, therefore, will do more work and better quality work.
6. You can use Hammers with Hickory handles around grease, oil, acids, and outside in any kind of weather.
7. Hickory tool handles have been used successfully ever since America was discovered—Yes, the Best Proof of Satisfaction.
8. THINK THIS OVER—If metal and plastic handled Hammers are good to use, why don't they use them with Axes, Sledges, and Picks.

---

**DEMAND—BUY—USE HAMMERS WITH GOOD QUALITY HICKORY WOOD HANDLES—FOR REPLACEMENT USE—USE SEAL BRANDS.**

---

## MOST IMPORTANT TO EVERY DISTRIBUTOR AND THEIR DEALERS PRODUCT INSURANCE

For your protection—which is essential to you and your Company—All SEAL BRAND PRODUCTS Branded with Seal Brand or Seal Brand names only are protected by Product Insurance.

**Note:** It is impossible for LaPierre-Sawyer Handle Co. to insure any Distributor's private brand names or numbers. In court, it would be difficult to prove the name of the manufacturer. Therefore, the Distributor would be the one that pays.

Here is why Product Insurance is important to you and your Company.

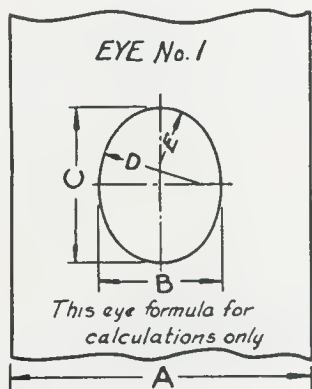

1. If some user of a tool that contains a Seal Brand repair handle or a user of a Seal Brand Hickory Mallet becomes injured in using same, or while using injures someone else, then the dealer, distributor, and LaPierre-Sawyer Handle Co. are protected if a suit for damages is filed.
  - a. Again, Seal Brand Product Insurance is important to you and your Company because damage suits usually run into several thousands of dollars.
  - b. The Hardware Association and Triple Mill Supply Association, long ago, recommends to buy, stock, and sell only items that are covered with Product Insurance.

Therefore, when you stock SEAL BRANDS that contain SEAL BRAND Names on the products, you are protected with Product Insurance.

# EYE SHAPES FOR TOOL HEADS

The shapes of the eyes of the different tools listed and described on this page are designated by numbers corresponding to those of the U. S. Dept. of Commerce

Heavy Forged Hand Tools Simplified Practice Recommendation—R17-47, effective October 15, 1947. We illustrate below these different eyes.

Eye formula:

A = Size of stock.

B = 40 percent of A.

C = 125 percent of B (approximate).

D = 5/6 of B.

E = To suit dimensions B, C, and D.

Note.—Manufacturers have a tolerance limit of 1/16 in. above and 1/32 in. under all eyes to allow for punch wear.

On eyes # 2, 3, 4, --- 3° taper on cross section

--- 4° taper on long section

EYE No. 2

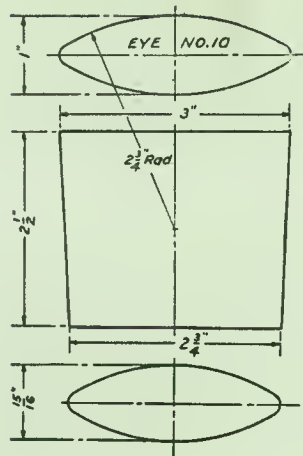

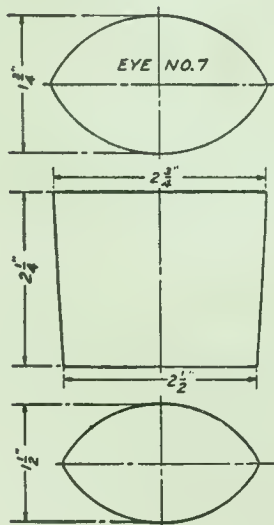

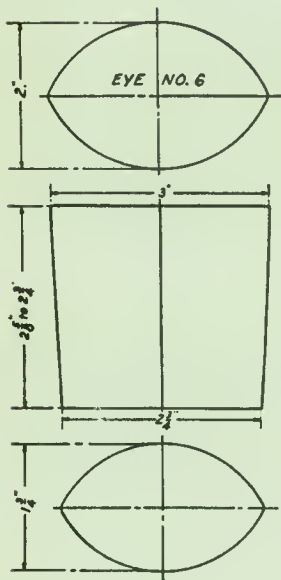

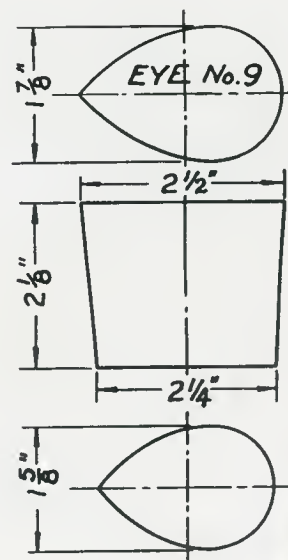

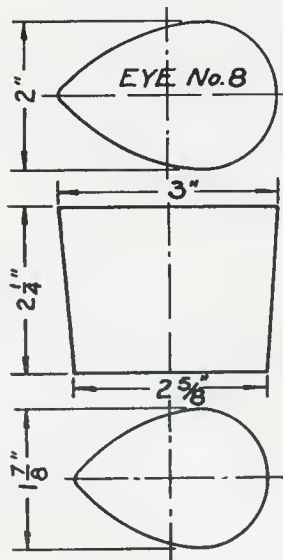

EYE No. 3

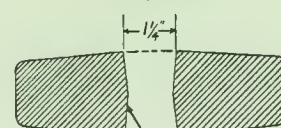

EYE No. 5

EYE No. 4

SKETCH OF STANDARD SLEDGE EYE

Eye tapered 4 degrees toward the center.  
Longitudinal Section

Eye tapered 3 degrees toward the center.  
Cross Section
